

# MSP cloud protection

[flashstart.com](http://flashstart.com)

# Our **solution** for the needs of **MSPs**

---

## Info

**FlashStart's DNS intelligence offers managed service providers ad-hoc solutions.**

These include ease of installation and management from a single centralized panel, with the widest possible customization of filtering on the cloud, and related reports, thanks to as many as 85 blacklist categories, continuously updated by **Artificial Intelligence**.

---

## Total protection

Filtering policies are enforceable for groups, machines and users even remotely, with immediate synchronization of Active Directory profiles. Customized licensing models, credit without expiration, brand customization and excellent technical sales support ensure far above-market business opportunities for all our **MSP** partners.

---

## Protection everywhere

For broader security we offer the ability to monitor search results, and a unique geographically based traffic blocking feature for high-risk areas. Maximum stability is provided by one of the fastest Global Anycast networks in the world according to independent surveys by Dnsperf.com.

# Why choose FlashStart?

## Maximum business

High margins for resellers and excellent price per type of End-User. No competition or direct sales. White label option for use of own brand.

## Intelligenza DNS

Security from browsing threats and unwanted content. 85 blacklist categories updated by AI for maximum customization of DNS Filtering.

## Protection everywhere

Security onsite as well as in remote and smartphone connections anywhere. Service stability and speed at the world's highest level thanks to Global Anycast Network.

## Additional Features

Youtube, Google, Bing and DuckDuckGo search monitoring. Option to block traffic to high-risk countries. Reports compliant with international regulations.

## Optimal configuration

Maximum device compatibility. Multi tenant dashboard with customizable Filters for users and groups, integrable with MS Active Directory and the latest RMMs.

## Skilled assistance

Excellent multilingual technical support, in English, Spanish, German and Italian, including via chat. Marketing tools available and training webinars on demand.

## Functions / Technical features

[info@flashstart.com](mailto:info@flashstart.com)

### Malware Protection

Navigation security from malware, ransomware, botnet, phishing...

### IP protection from blacklists

Upkeep of public IPs out of global blacklists.

### DNS Intelligence on contents

Parental control and personalized web filtering for households, schools, organizations and companies.

### Detailed analytics

Analytic reports in real time, by visited category and macro category, and scheduled via email.

### Blacklists based on A-I

Over 90 categories continuously updated through Artificial Intelligence.

### Maximum compatibility

Possibility to connect it to every Router, WiFi HotSpot, Firewall and Gateway. Support for static IP, dynamic IP (IPU4, IPU6) and DNS protocol.

### Local Cache DNS

Optional DNS Proxy that can be added to the ISP net to further reduce the resolution latency.

### Research engine filtering

Block of explicit contents (violence, porn...) that can be activated for searches on Google, Bing, YouTube and DuckDuckGo.

### Geoblocking

Block of navigation towards countries at risk of hacker attacks and cyber threats.

### Maximum global experience

Appreciated for more than 10 years by Internet Service Provider in 150 countries.
