Flash&Start®
INTERNET PROTECTION

Safer internet
thanks to our
resellers

Our **solution** for **retailers' needs**

Info

To ensure the best protection around the world, FlashStart has chosen to entrust customer contact and distribution to **professional partners and area dealers,** with the capability of customizing the service with their own brand name.

Total protection

We guarantee significantly higher **profit margins** than market competitors, and, at the same time, an excellent product with the best quality/price ratio for end users.

Artificial intelligence (A.I.) algorithms with extremely high predictive capability, eighty-five blacklist categories that are constantly being updated, a robust **global Anycast network** that is among the fastest in the world, and exclusive options, such as protection on a geographic basis, are just some of the advanced **features** that raise our product to the highest levels of performance and affordability.

Why choose FlashStart?

Advantages of the channel
FlashStart guarantees sales only through qualified retailers with the ability to use their own brand names. Unrivaled margins and excellent flexible pricing by user type.

Advanced protection
Internet browsing protection against malware and unwanted contents. Advanced DNS filtering with eighty-five categories updated by artificial intelligence.

Global infrastructure
High quality DNS protection anywhere, thanks to the global Anycast Network, among the world's most stable and fastest, according to surveys by www.dnsperf.com.

Additional features
Unique geoblocking tool to prevent the browsing of server domains located in high-risk countries. Protection of remote connections. Monitoring of search result.

Optimal configuration
Easy installation on all devices. Ability to customize filtering for groups, users, machines and schedules, with immediate integration into Active Directory.

Level support
Expert, multilingual technical support, including via chat (no bots). On-demand marketing tools and training webinars in English, Spanish, and Italian.

Functions / Technical features

Malware Protection
Navigation security from malware,
ransomware, botnet, phishing...

IP protection from blacklists
Upkeep of public IPs out of global blacklists.

DNS Intelligence on contents
Parental control and personalized web filtering
for households, schools, organizations
and companies.

Detailed analytics
Analytic reports in real time, by visited category
and macro category, and scheduled via email.

Blacklists based on A-I
Over 90 categories continuously
updated through Artificial Intelligence.

Maximum compatibility
Possibility to connect it to every Router,
WiFi HotSpot, Firewall and Gateway. Support for
static IP, dynamic IP (IPU4, IPU6) and DNS protocol.

Local Cache DNS
Optional DNS Proxy that can be added to the
ISP net to further reduce the resolution latency.

Research engine filtering
Block of explicit contents (violence,
porn...) that can be activated for searches
on Google, Bing, YouTube and DuckDuckGo.

Geoblocking
Block of navigation towards countries
at risk of hacker attacks and cyber threats.

Maximum global experience
Appreciated for more than 10 years by Internet
Service Provider in150 countries.
